PARTS PILOT

+ FAST PART PLACEMENT

Simply scan & assign a location for each item. Once all the inventory has been appropriately placed in the desired locations, the user can apply the updates instantly.

AUDITOR

+ GUARANTEE ACCURATE INVENTORY

Choose from two methods to audit inventory. Individually review one part at a time, or scan a shelf to confirm all the items in that location. While scanning each part, any item with an invalid location can be instantly updated in real time, or be exported to an Excel spreadsheet for review.

RAPID DELETE

+ DELETE EXCESS INVENTORY

Scan any part labels you wish to delete, & with two simple clicks, the parts on the list will be deleted out of your inventory system.

PHOTO LINK

+ UPLOAD INVENTORY PHOTOS

Capture & instantly upload auto part or vehicle photos with the versatility of Photo Link. Add your logo or watermark with the touch of a button.

COPILOT

+ HANDHELD YARD MANAGEMENT

CoPilot transforms how your team works. From pulling parts on work orders to regrading inventory, managing repricing, & recovering deleted stock, everything lives in one place. Track your workflow from order to invoice without breaking stride. Built by salvage yard operators for salvage yard operators — work smarter, not harder.

CoPilot Features:

+ WORKFLOW MANAGEMENT

Work orders—complete with inventory numbers, images, & locations—all in the palm of your hand. Pull parts & complete orders on the spot. Promote work orders to delivery ticket or invoice. Capture proof of delivery, take photos, add tracking numbers, & more.

+ PARTS GRADER

Regrade auto parts with ease. Simply scan the barcode & update part grade & damage codes with just a few clicks.

+ REPRICING TOOL

Scan or enter a part number, update the price, & it's live in your inventory instantly. Since CoPilot runs on a rugged handheld, your team can reprice anywhere in the yard.

+ PARTS TRACER

Parts Tracer puts full part history at your fingertips. Enter any part number to see its status—deleted, invoiced, or missing—plus complete inventory details. If a part was deleted by mistake, one button restores it instantly.

+ IMAGE LOOKUP & DAMAGE CODE MAPS

Review inventory images & refer to damage code maps on the go.
